

EASY-TO-READ DENTAL HEALTH EDUCATION PAMPHLETS

Produced by the Maine Department of Health & Human Services, Bureau of Health,
Division of Community Health, Oral Health Program

Written at a 4th to 6th grade reading level, these pamphlets have been client tested and are designed to be easily reproducible on most photocopiers. Important dental health education and promotion information is presented in an appealing, easy-to-read format, using large print and simple but attractive illustrations.

Use this order form to request sample copies of the pamphlets and/or photocopy masters. Photocopy masters are printed on laser paper and will allow you to make as many copies as you would like. You may also make changes easily on this paper. Some pamphlets may include Maine-specific information, but you may change this as long as you acknowledge both the MDHS, Oral Health Program and the University of New England where indicated. If we send you a photocopy master, we'll tell you what you should include for credits. For more information write to us at the address below or call (207) 287-3121.

	(√)	Sample	Photocopy Masters
1. Fluoride Facts for Parents			
2. Taking Care of Your Baby's Teeth (for parents of children 0-3)			
3. Taking Care of Your Child's Mouth (for parents of children 3-5)			
4. Dental Sealants
